EXPERIENCE

Senior AWS Engineer — **Mood Media** 2025 – Present

- AWS infrastructure, Terraform and DevOps

Owner / Manager — **Carolina Brew Supply** Apr 2021 – May 2023

- Designed and hosted POS software, integrated with the e-commerce site
- Designed fault-tolerant, self-healing infrastructure using AWS CloudFormation
- Designed and implemented AWS SQS for internal printer operations
- Integrated DoorDash and Google Maps for delivery estimates

CloudOps Engineer (Contractor) — **EverOps / Zendesk** Mar 2020 – Feb 2021

- Used Jenkins, Kubernetes and Ansible for large-scale deployments
- Worked with a 100% remote team across multiple time zones

Senior Automation Engineer / Cloud Architect (Contractor) — **Levvel** Jun 2019 – Mar 2020

- Automated deployments for U.S. Navy battleship systems
- Used AWS GovCloud to emulate SIPR and NIPR networks
- Automated cloud infrastructure builds with Ansible and Jenkins

Senior Automation Engineer / Cloud Architect — **Citco** Jan 2017 – May 2019

- Migrated on-premises workloads to AWS with automated CloudFormation and CodePipeline infrastructure
- Designed cross-region fail-over and recovery templates
- Built a server provisioning portal with PHP/MySQL
- Team lead for 3 remote engineers

FOUNDER & LEAD ARCHITECT · SAAS PRODUCTS · 2024–PRESENT

Triton Email — multi-tenant, white-label email platform for hosting providers
